Chronicle: Porter, the Loco Foco candidate for Governor, had been proved guilty of cheating his creditors by taking a false oath. The fact was established by the affidavit of Mr Stonebreaker, a citizen of respectability. For this, an attempt has been made to take his life. Like the Jacobins of France, the Loco Focos are determined to resort to blood to sustain them in their un[illegible]

HORRID ATTEMPT TO MURDER.

"We have just learned by several gentlemen from Huntingdon, that an attempt was made on Tuesday night last, between the hours of 2 and 3 o'clock, to take the life of John H. Stonebreaker, Esq. on the canal above Huntingdon. Mr. Stonebreaker and Mr. Taylor were sleeping in a bed in one of the shanties. Three pistols were discharged through a broken pane of glass towards the bed; two of the balls struck a log or plank in the shantee, about two inches above the clothes, and the other ball passed through as a [illegible] grazing the head. It has caused great excitement in the neighborhood.

"Let the people look to the above. It has no parallel on record in our country. It is MURDER, ATTEMPTED AT MIDNIGHT, for opinion's sake. What will the people of Pennsylvania say to it? Will they sustain Mr. Porter, the candidate whose friends resort to such means to put down those who expose his dishonesty, by SHEDDING THEIR BLOOD? It is of a piece with the CRY FOR BLOOD recently raised in Philadelphia. We will give a more full account in a day or two."

Wisconsin Election. The Detroit Free Press of Saturday, 22d ult. says; "We learn from a gentleman who came down the lake yesterday, from Wisconsin, that the opinion prevailed there when he left, that James D. Doty, Esq. had been elected to Congress. Milwaukie, our informant states, gave him three hundred, and Brown county five hundred majority."

The New York Journal of Commerce adds, "Judge Doty is a Van Buren Sub-Treasury man. He had two opponents, Mr. Burnell and Mr. Jerne."

Not so fast. The Loco Focos have been hurrying over the supposed election of John Smith to Congress from Vermont. They were a little too fast. There was no choice, and the whigs have nominated Timothy Tollcott in place of Mr. Allen, the present representative.

MECHANIC'S FAIR AT PORTLAND.

The editor of the Portsmouth Journal, who was present at the Fair in Portland, gives an account of the articles there exhibited. The following extract will not be without interest to a large portion of our readers.

The place for exhibition was well adapted to the occasion. The principal room was the City Hall. The occupants of the market house beneath the Hall vacated their stalls, and fixed it up for the occasion, and the rooms over the City Hall were also brought into requisition. But few articles had been presented for exhibition up the middle of the week before the opening of the Exhibition; and it was feared that the effort would prove a failure. By Saturday, however, articles came in from all quarters, and on Monday the doors were not opened until several [illegible] were [illegible] on account of the lack of time to arrange the articles.

The first article which meets the eye on entering the lower door, is a Barge—40 feet long, made by Thomas K. Roberts, of Portland, and of the most finished workmanship. It is fitted for ten oars, which ply in brass row-locks, the rudder regulated by a wheel.

A small Steam Engine was in operation at a spinning machine, and also looms for weaving. There were several agricultural implements, some of which are of recent invention.

O. B. Wade, editor of the Yankee Farmer, exhibited a patent Seed Sower and Drill Machine, of his own invention. This machine has not yet been brought into public notice, but is well worthy the attention of the agricultural community.

Gault's *Churn*, which is capable of churning thirty pounds of butter at a time, and do the work in fifteen or twenty minutes.

A *Corn Sheller*, with which a man and boy can shell from eighty to a hundred bushels per day.

Vaughan's *Cradle Scythe*, for cradling the grain in the operation of cutting, a cheap and valuable labor saving machine.

A *Brick Machine*; A *Biscuit Machine*; A vertical *Hay Cutter*.

An *Apple Parer*, which pares very nicely three or four apples a minute.

The visitor passes from the lower room through a temporary enclosure, well filled with handsome specimens of *Coaches* and *Chaises*, of Portland manufacture; and *Fire Engines*, made in Boston and Philadelphia, and passes up stairs to City Hall.

Here he first enters the avenue of a sort of gossamer temple, within which very appropriately the *Muse Fair* is personified in the lively figures a dozen or twenty goddesses, with their sceptres in hand to protect from lawless interference the labors of female ingenuity as displayed in the elegantly wrought needle, bead, sea shell and wax work, over which they preside.

In the Hall were three tables of the whole length well filled with numerous articles of skilful workmanship; more than a hundred specimens in the fine arts were systematically arranged on the side walls, and specimens of cabinet work, musical instruments, &c. surrounded the room.

After passing six times the whole length of the Hall, the visitors ascended another flight of stairs, and found another room, nearly as large as the Hall below, filled with various specimens of workmanship, from the ponderous patent capstan, and ships' sails and blocks, to the delicate touches of the painter's pencil, as seen in the "condemned boy."

To go into the detail of all the articles exhibited, more than one hundred in number, would require more room than we can at present devote, and we shall therefore content ourselves with enumerating such articles only as are the most prominent, not however, claiming them as the most important exhibited. In making our enumeration and comments, we wish to show the state of the arts in Maine, and that our manufactures can compare from the east as well as other quarters.

The most prominent articles of exhibition were of Cabinet work, most of the specimens of which were from different towns in Maine.

The rose wood and mahogany Piano Fortes, manufactured by Clark & Edwards, of Portland, were good specimens not only of finished cabinet workmanship, but were also pronounced by competent judges, instruments of fine tone. These gentlemen have been engaged in the manufacture of Piano Fortes for several years in Portland, and some of the best Organs in the city are of their make. They also had in exhibition a good toned Seraphina."

A Centre Table, of perfect workmanship, from the shop of Shaw & Merrill, of Bangor, attracted much attention. The top was composed of 84 intersecting diamonds and triangles, mahogany and rose wood interspersed.

A French Secretary, a good specimen of workmanship, was exhibited by Messrs. Dole of Bangor. And specimens of Secretaries, Sofas, Chairs, &c. were presented by the several Cabinet Makers of Portland.

Several specimens of the work of boys and apprentices, were deserving notice, by which other boys may be encouraged to good workmanship. One was a Bureau, about a foot high, made by an apprentice who had been but two years at the trade; another was a miniature Chair, of about six inches, well proportioned and finished, cushioned, &c. with great accuracy. It was made by J. W. Carr, of Bangor, now twelve years of age, who has been confined to his bed by sickness for three years, and unable to work without resting on one elbow.

Table Knives and Forks. Fine specimens, from a manufactory recently established in Portland, by Messrs. G. & D. N. Ropes, by steam power. They will shortly be able to complete from 100 to 150 sets per day. Several cards of horn and ivory handles were exhibited, in a highly finished state. They can be afforded at a lower price than the imported article. The stock in one set of 24 knives and forks exhibited, was of sixteen dollars value.

Specimens of Spanish Cigars, made in Portland. At the bottom of the sheet from the vinas heads of several rolls of tobacco very tastefully twisted in serpentine form, the venomous tongues are projecting forth. A very clever device. The manufacturer is entitled to a premium for his ingenuity.

School illustrations of the mechanical powers.

Edge Tools, by Joseph Baxter, of Portland. Axes, hatchets, chisels, &c. We noticed among them an adze, where the steel was neatly and securely fitted in without being welded or riveted.

Wax specimens of fruit, by Lowell & Souter, of Portland. Some of them of the most difficult patterns, such as the British Arms, &c. and executed in the most skilful manner.

Good specimens of Carpenter's Edge Tools, Locks, and Hinges, by Nathaniel Hill & Co. Portland.

An elegant Cake, had at the Fair, weighing 209 pounds. The frosting was regularly divided for distributing it into sixty [illegible] of five pounds each, and will be retailed at the close of the Fair [illegible] per lb. [illegible] of Portland in the Boston [illegible]

Mr. Harding, of Portland, exhibited a [illegible] revolving cylinder lock, which receives ten charges at once, and discharges them as rapidly in succession as the trigger can be pulled.

Several specimens of wool manufacture, from different factories; of Cotton Drilling, from the Steam Mills; and Cotton Flannel, from Brunswick.

Among the specimens of the antique, was a chair covered with wrought worsted. At the burning of Falmouth, the chair for which this covering had been prepared was sacrificed to the flames; but more highly prizing an article which had cost her much labor, the fair owner secured it, and in as good a state as when first made, it formed no uninteresting part of the exhibition. Also the identical sword which Gen. Stark brandished when upon the field of Bennington he proclaimed that "the red coats must strike in thirty minutes or Molly Stark is a widow!"

A [illegible] of Hadcin Wine of the vintage of 1705—adorned with the accumulated cobwebs of 103 years! It was from the cellar of Mr. Hackett, of Portland.

The Webster Vase, and specimens of Plate and Jewelry, from Jones, Low & Ball, of Boston. And "Queen Victoria," who last year was the unnamed wax beauty continually looking around on the visitors of the Faneuil Hall Fair, occupied a conspicuous station on the table. The Portland ladies had given her a new dress for the occasion.

There were many specimens of cottages, temples, boxes, &c. formed and covered with cockle shells, in the most tasteful manner, the works of female ingenuity.

The specimens of Painting were numerous. The labors from the pencils of Mr. C. O. Cole, and Mr. C. Codman, both residents of Portland, shone to much advantage, on every side of the Hall. The first objects that meet the eye, and give a smile to the countenance of every visitor as he enters, are "the *Fairies*," "Harry Hause," (or William H. Harrington,) and "old Bill," his father. Portraits of the most distinguished gentlemen in Portland, are displayed, and lady sketches are interspersed. The Boatswain of the Delaware, by Cole, would do credit to any artist. We were also much pleased with The Duel, by Codman, and The Condemned French Boy, we believe by the same artist.

The "Departure of the Children of Israel from Egypt," and "Belshazzar's Feast," were regarded by many as handsome engravings. On examination, however, they are found to be the work of the pencil of a young lady of Portland, Miss Louisa D. Belford, daughter of Mr Davis Belford. To each of the above works she devoted four weeks of close application. The perspective is fine. Some other fine specimens of her pencilling on glass were exhibited. Without any regular instructer she displays a skill which we think with little cultivation would render her conspicuous among the artists of the day.

Many samples of the needlework of ladies of Portland and the neighboring towns. Carpets, Rugs, Mats, Fire-Screens, Quilts, Counterpanes, Curtains, &c. were displayed in various directions.

Among the silk Quilts was one consisting of 7500 pieces made by Mrs. Mary Colcord, 60 years of age. A very good Quilt was exhibited, made by a girl four years of age. Silk Stockings, 2 inches in length, and Mittens of one inch by Miss Sockbridge, of North Yarmouth.

Specimens of Stone Ware, from the factory of Lyman & Clark, of Gardiner.

Dyers' Patent Foot Stove, the frame work of Sheet Iron, the [illegible] and covered with cloth. It is heated by a lamp and will preserve a regular heat all day. A good article for meeting houses and travelling purposes.

Brushes from the manufactories of Mr Gammon and that of Mr. White, of Portland.

Specimens of Hats, Boots and shoes, Glass Ware, and of almost every mechanical art, were exhibited which our limits will not permit us to enumerate.

The Fair was well attended, and probably from 12 to 1500 dollars will be realized from the tickets sold.

The whole affair is highly creditable to Portland and an honor to Maine and will, we trust, be found highly beneficial in the advancement of the arts, and in promoting an intercourse between the mechanics of the States.

Reason for having a School. How often have we heard mother's say, "I shall be glad when the school commences again. I can do nothing with my children at home. They worry my very life out of me daily." The school is regarded as a place of confinement, till children are able to work, a prison, for those who cannot be governed at home. Common School Almanac.

☞ The Augusta Age says that it will "attempt no reply to the '*small talk*' of the Whig." We are glad that it has come to the conclusion of not meddling with matters beyond its capacity.

From a friend we have the melancholy intelligence that Col. R. E. W. Earl died at the Hermitage on the 16th inst. This gentleman has been, for many years, an inmate of Gen. Jackson's home, his ardent and devoted friend and the companion of his leisure hours. *Globe.*

Look out for Counterfeits. An old counterfeiter, named Walter Hineman, was arrested on Thursday night for attempting to pass a counterfeit $2 bill on the Winthrop Bank of Massachusetts. It appeared to be altogether a new emission, and printed from a well executed plate. It is numbered 545, letter D, and signed James Russel, cashier, and J. J. Clarke, president. [Portland Courier.

A communication in the Portland Argus requests masters of vessels on the route of the eastern steamers to "*show a light*," and keep on their course without regard to the boat. By following these directions there will be perfect safety.

It is a remarkable fact says the Kennebec Journal, that the Whigs of Maine, at the recent election, threw more votes for Edward Kent than the Whigs of Massachusetts threw for Mr Webster at the last Presidential election.

Mount Vesuvius continued, at the date of the last advices from Naples, in a state of eruption. Columns of fire, 100 feet high, had been emitted, a torrent of lava was rolling down in the direction of the hermitage, and the inhabitants at the foot of the mountain were ready for flight with their effects if any danger should arise.

Fifty-five land lots, comprising 660 town ships, and several parts of town ships, about fifteen [illegible] of public lands, have been entered by the government at the sales in the States of Indiana, Illinois, Louisiana, Arkansas, Ohio, Alabama, Mississippi, Michigan, and Missouri, and the territories of Wisconsin and Iowa.

The cotton manufacturing establishment in Fanesville, (Attleboro) belonging to Milton Parrow and [illegible], and containing about two thousand spindles, was destroyed by fire between 11 and 12 o'clock on Friday night. $30,000 insured at the Worcester Mutual Fire Insurance Office. The South Carolinian, is the appropriate name of a new paper, established to support the views of Mr. Calhoun. Mr Calhoun is in every sense a South Carolinian. His principles and his policy extends not an inch beyond the borders of his own State. It is this which has made him utterly unfit for a National Statesman. ib.

Mr. McDuffie and the Sub-Treasury. We find in the Columbian Telescope of Saturday last the following extract of a letter from Mr. McDuffie to a gentleman in South Carolina, in which he expresses his opinion upon the specie feature of the Sub-Treasury scheme:

"I regard the scheme of exacting specie payment of the Government dues, to the exclusion of the bills of specie paying banks, as a measure fraught with such deleterious consequences that I do not believe it would be endured. Specie is not our currency; it is merely a standard to which we refer, by means of the exchanges, to ascertain when the currency is redundant. Paper Credit is our actual currency, and to destroy that would be to produce one of the most unjust and ruinous revolutions which ever desolated the earth."

Melancholy Suicide. An inquest was held on the body of Emma Smith, aged 26, a native of England, who died yesterday from the effects of a large dose of corrosive sublimate, taken by her when under the influence of a morbid melancholy, brought on, as was [illegible] dence before the coroner, by excitement on the subject of religion. Her aunt, with whom she lived, was called, and stated that Emma was a very prudent, serious girl, a member of Mr. Downer's church. That on Thursday she took a quantity of corrosive sublimate, and informed witness of the fact immediately. Dr S. Griswold was called in and gave her the proper antidotes white of eggs, oil and milk, but without success. A post mortem examination proved the poison to have been the cause of her death. Two letters, without date or signature, written by her a short time before, were handed in. They are as follows:—N. Y. American.

Dear Aunt. Let me say a few words to you. I hope that you will not make my death give you any trouble. Think it all for the best. I know that I shall only be a trouble to you if I live.—I was once a great comfort to you; we have spent many happy days together, but I feel they are all over, and it is my fault and not yours. You are the same friend to me as ever, but I am not to you. I feel very much altered.

Aunt don't grieve yourself, but make yourself as happy as you can: you will feel lone-some, but let your dear children be a comfort to you. Put your trust in God, and he will help you. You have seen a good deal of trouble, but it will soon be over; don't crave the riches of this world, but live as easy as you can, and take good care of what you have. Dear Aunt, don't grieve. Keep these lines.

Uncle: I wish to say a few words to you before I die; that is, I hope you will never think it is aunt or you that is the cause of my death, and please all [illegible] It is my own wicked heart that leads me to it. Uncle, I hope you will use my aunt better when I am gone. You know better than I can tell you how you have lived the last few years. I expect you see a great alteration in me lately; I feel that I am getting more wicked every day. I feel I shall never be any better if I had all this world. Never grieve after me, for I lived long enough. I should only be a trouble. Uncle, let me persuade you to do the best you can for your dear family [illegible], love my dear aunt, and you will be happy the remainder of life."

DR. BRANDRETH'S GENUINE PILLS

Doctor Sangrado's system still
Lives in the world, in all, to kill!

THIS system does indeed live still, and is practised by the very men who laugh at Doctor Sangrado as a visionary fool. The Mathematical Faculty!!! Let this truth be pressed upon every mind that all pain and weakness proceed from the presence of morbid matter, and that humors IN THE BODY by which the circulation of the blood is impeded, and that the only sensible method is to remove them from the stomach & bowels, then take

Brandreth's Pills, concocted forth
From the pure products of the earth;
They often save, but ne'er destroy!

BLEEDING ALWAYS IMPROPER,

"For the life of the flesh is in the blood," Leviticus, chapter xvii, v. 11. When the properties of BRANDRETH'S VEGETABLE UNIVERSAL PILLS shall have been appreciated, bleeding will no longer be thought of, except in violent inflammations; eight or ten of them will take, in the course of two or three hours, more of the impure humors from the body, by the stomach and bowels, than bleeding to the extent of forty ounces could possibly have done, and it should be remembered that the Pills remove ONLY those parts from the blood which were the cause of inflammation; whereas bleeding removes the essential parts also. How great the prostration of all the corporeal powers after a copious bleeding! On the contrary, what agility and strength is felt after a dose of this medicine; the body is indeed lightened of a load. Nothing is equal to ridding the vitiated humors with a vegetable medicine of this kind, which 34 years have proved never to do injury, but always good. Is the pulse too high? A dose of these Pills will bring it down. Is it too low? the same means will increase it to a proper standard. Is it tremulous, showing nervous excitement? the Pills by soothing the system will allay it.

Thousands of the most respectable citizens of the United States will be referred to with pleasure by Dr. B. who have for many years been in the habit of being bled as often as four times in a year; and whose constitutions, in consequence, were becoming weaker and weaker, but who, since they have made use of these Pills, have never lost a drop of their precious blood. When any of their old symptoms appeared, instead of running to a Doctor and having a vein opened, they have swallowed six or eight Pills, which soon removed the vitiated humors that were impeding the blood in its circulation. Those sensible people, simply by the use of these invaluable Pills, are increasing every day the powers both of body and mind, which, by the practice of bleeding, were both becoming dreadfully impaired.

The following cases of cure, by the use of Brandreth's Pills, alone, are submitted with respect, to the unprejudiced portion of the Boston public:

ASTHMA CURED. The following extraordinary case of Asthma, which is authenticated by seventeen respectable and well known inhabitants of Greenwich, Ct., deserves, by all persons, a careful perusal. The most prejudiced must own that evidence is on the side of these Pills, which, by the [illegible] shows there is no necessity for any other medicine.

This is to certify that Thomas S. Brown of Greenwich, Ct., was taken with a cold, numb feeling, on the 13th of June last. He began to cough and raise phlegm and in the course of twenty-four hours about two quarts of thick white jelly was expectorated. Three physicians in Stamford, Greenwich, and Sawpits, pronounced it a nervous humoric Asthma, and after prescribing for some time to no effect, the three consulted together, and finally declared that they could do him no good; it would and must result in consumption, and death would ensue, and that in a very short time. The pain was excessive in all parts of his body, and the difficulty in breathing was such as almost to cause strangulation. He was reduced to a mere skeleton, and finally gave himself up to death. After being in this miserable state nearly two months, he saw an advertisement of Dr. Brandreth's Vegetable Universal Pills, and immediately sent by Capt. J. Waring of Greenwich, for a box, and found relief in the course of a few days, which encouraged him to persevere, and now having taken them for about four months according to the direction, is entirely recovered, and so far as we can judge, in consequence of taking the above Pills, which we have also used in our families, and have found them invaluable.

Signed. Greenwich, 22d Feb. 1836.

Certificate of John Goulden, who has known the above pills forty years!

I hereby certify that I have known Brandreth's Vegetable Universal Pill for upwards of forty years, they were used by my family connections, in the county of Dorset, England, since the year 1795, many of whom they cured of old standing complaints. JOSEPH GOULDEN.

Bridgeport, Feb. 18, 1836.

Certificate of cure of CHOLICS, FITS, &c. &c. From a BOSTONIAN, whose address is at the foot.

[TRUE COPY.]

To Dr. Benj. Brandreth:

My dear Sir, I write a few lines to inform you that I have been making use of your Vegetable Universal Pills. I have been afflicted with a complaint supposed to be caused by PAINT. I was subject to a great soldness through my whole system, attended with frequent pain and severe cholics; for the year, I have also been subject to fits, which would seize me in the night, and when I have come to myself, I have been as weak as a child. I am ready to state the facts more particularly, and how the medicine acted upon me, at my residence, No. 17 Sudbury street, to any one who wishes to inquire.

I feel the medicine has been of very great service and that the disease under which I labored have been by it ENTIRELY REMOVED, for which I shall ever feel grateful to Providence and to you.

Believe me to remain,
Very respectfully,
JOHN LUMMUS,
Boston 17 Sudbury street.

A VALUABLE REAL ESTATE FOR SALE.

The whole of the PHIPSBURGH ESTATE, situated in Clearfield and Centre Counties, in the state of Pennsylvania, with all the improvements thereon, is now offered for sale.

THIS Estate comprises about SEVENTY THOUSAND ACRES of Land VERY HEAVILY TIMBERED, and in the HEART OF THE BITUMINOUS COAL FIELD, upon which are already established FORGES for the manufacture of BAR IRON, with an EXTENSIVE SAW MILL, a SCREW FACTORY, with improved machinery, in which wood screws of all sizes are manufactured, A ROLLING MILL for the rolling of blooms into round rods for nail shaving, with AIR FURNACES for heating blooms. An ANNEALING HOUSE, a BUILDING with a FURNACE and MACHINE for heading railroad screws. A PATTERN HOUSE, containing numerous patterns for casting machinery. A CUPOLA FURNACE where the machinery of the screw factory is cast, and an extensive country business carried on. A BUILDING containing a TILT-HAMMER and SHEARS for cutting iron. A MANAGER'S HOUSE & OFFICE, and BOARDING HOUSE for workmen. A valuable GRIST MILL, worked by steam power.

Also, the PROPRIETOR'S HOUSE, beautifully situated, seventy-six feet in front, with spacious piazzas front and rear, and possessing every convenience calculated for a gentleman's residence. A LARGE AND SUBSTANTIALLY BUILT BRICK HOTEL, in the town, with all the requisite out-buildings. A WELL BUILT STONE HOUSE, forty-two by twenty-four feet, with the land adjoining. A LARGE STORE HOUSE calculated for an extensive country business. FIVE COTTAGES in the village, with gardens attached. A FARM HOUSE with a spacious and well constructed Barn, Granary and out buildings, and one hundred and fifty acres of highly cultivated meadow land adjoining. The whole estate is abundantly supplied with springs of excellent water, and streams, with water power sufficient for saw mills, grist mills, forges, furnaces, &c. It is situated on the Moshannon and Clearfield Creeks, about two miles from the river Susquehanna on the north, to which the Moshannon and Clearfield Creeks afford navigable outlets in time of freshets and about twenty five miles from The PENNSYLVANIA CANAL on the southeast, to which a highly favorable route is presented for the construction of a Rail Road to the JUNIATA DIVISION of the Pennsylvania Canal, through a portion of Huntington County, abounding in IRON ORE, of the finest quality, where a number of forges and furnaces have been long established, but which are labouring under difficulties from the WANT OF THIS COAL. A charter has been obtained for the construction of the rail road, THE LOCATION OF WHICH IS COMPLETED, and the estimates furnished, preparatory to a commencement of the work. The distance from the COAL MINES to the CANAL is only twenty eight miles.

The MAGNIFICENT TIMBER upon this estate, consists of all the varieties usually found in Pennsylvania, but the WHITE PINE, which is MORE PARTICULARLY ABUNDANT, is of the largest description, fit for MASTS, SPARS, PANNEL BOARDS, &c. and of an EXCELLENT QUALITY. The BITUMINOUS COAL is found in every hill, in veins of various thickness, viz: four feet two inches, six feet and nine feet, and there are two, three or four veins in a hill according to its elevation. The quality varies in different situations FROM THE HIGHLY BITUMINOUS SOFT COAL, CLOSELY RESEMBLING the NEWCASTLE COAL OF ENGLAND, to a much harder and heavier Coal containing less bitumen. LIME STONE, FIRE CLAY and IRON STONE have been discovered accompanying some of the measures, and will doubtless be found to be general, upon a proper examination. A HIGHLY FAVORABLE CHARTER has been granted by the legislature of Pennsylvania, containing MINING, MANUFACTURING and TRANSPORTING PRIVILEGES for a period of SIXTY YEARS, authorizing a company to hold this estate in a corporate capacity, and to convey to market its vast resources.

Family circumstances however, having occurred, to prevent the proprietor from individually accomplishing this important enterprise, he would be willing to sell, ON LIBERAL TERMS, the whole property to a respectable company, who would carry out the provisions of the charter, to whom, of course, he would transfer all its privileges, or he would sell the estate in tracts, to suit the convenience of purchasers.

The title to this Estate is INDISPUTABLE, and the SALUBRITY of the CLIMATE is proverbial. Taking into consideration, therefore, the immense quantity of the HEAVY and VALUABLE TIMBER upon this estate, the presence of IRON ORE, the INEXHAUSTIBLE supplies of BITUMINOUS COAL, so essential in the GENERATION OF STEAM, the PRODUCTION OF GAS, and for domestic purposes and the arts in general, its ADVANTAGEOUS POSITION, with regard to its communication with the SEA BOARD, its IMMEDIATE PROXIMITY to a region ABOUNDING in the RICHEST IRON ORE, in which the WANT of FUEL is already productive of serious inconvenience; considering also, the highly favorable location of the rail road, intersecting the Pennsylvania canal, and thus affording the choice of both the Eastern and Western markets, and taking into view the many HOUSES, BUILDINGS, MANUFACTURING ESTABLISHMENTS, CLEARED and COLTIVATED LAND, thus enabling the enterprising company to commence their operations, without incurring the HEAVY EXPENDITURE of money, and the DELAY incident to new establishments, it is confidently believed that a rare opportunity is now presented for the SAFE and PROFITABLE investment of capital.

For further particulars, application may be made either personally or by letter, POST PAID, to Samuel Corp, Esq. New York; John C. Montgomery, Esq. Philadelphia; John Harris, Esq. Brown's Mills, Mifflin county, Pa. or to
